# The Court Circular

## The Head's Lines

I think that nearly all of our families are now back with us—or will be after the bank holiday. We do have a full complement of staff now and so we can continue with what looks to be a busy term.

Payback for all those who spent afternoons last year helping in the gardens—we have had a stunning display of bulbs and crocuses, with more to follow.

Barracudas was a great success over Easter and they are looking forward to an excellent turnout in Summer. Go to [www.barracudas.co.uk](http://www.barracudas.co.uk) to book.

There are many things for your diary. The two “three-line-whip” events on a Saturday are the Summer fair/family day which is on Saturday 22nd May and Speech Day on Saturday 3rd July. The senior play is *Pride and Prejudice*, and it will be *Al fresco* on the Lawn on Friday 7th and Saturday 8th May at 7 p.m. Further details overleaf.

There are numerous other items in the green card and a huge number of trips planned for the end of term—you will thank yourself if you connect it to the family diaries soon rather than later. In general, too, please look out for the galas and sports days in the last few weeks of term, where parental support is always hugely appreciated.

You may have noticed the new-look hobbies format this term—Mr Cockerill has galvanised the staff and there is a super variety on offer. I do hope the children make the most of them.

After a number of very static years on the staff front we have a few changes in the offing. We have also taken the opportunity, with a new Deputy Head, to tweak the management structure. A separate letter detailing these is enclosed.

Following the arrival of the warmer weather, please would you ensure that your children come to school with a named sun hat (green caps are available from Reception), named sun cream and water bottles.

And finally...

Charles Darwin was a naturalist who wrote the organ of the species.

Benjamin Franklin produced electricity by rubbing cats backwards.

The theory of evolution was greatly objected to because it made man think.

Cuckoos lay another bird's eggs in their nests.

Algebraic symbols are used when you don't know what you are talking about.
