

Reception Knowledge Organiser: Autumn 2: How Does it Work?

key books this term:

cooking:

Firework pastry, dinosaur puffs,
marshmallow eggs, fossil biscuits,
Christmas baking

How can you learn at home?

Read and share non-fiction books, talk about how we use books to find information, why not try using a child friendly search engine to find out about dinosaurs (kiddle, kidtopia, kidrex)

Write the sounds you can hear in words, start with initial sounds. Use phoneme frames to write CVC words and use them to label things.

Literacy

Our learning will be mainly focussed on the story 'Izzy Gizmo'. Key skills will be developed through reading, exploring and retelling the story.

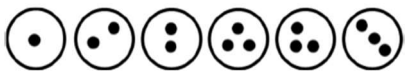

I can:

★ listen to stories ★ hear and say sounds ★ retell a story ★ make and read CVC words ★ create a story ★ record some graphemes

Maths

This term we begin to really understand the concept of numbers and how we can manipulate them. We think about how we can represent numbers, explore shape names, find more and less, and begin to understand the concept of time thinking about night and day. I can:

- ◆ recognise numbers to 10 ◆ subitise numbers in 5 ◆ make marks to represent numbers and scores in games ◆ count and compare numbers
- ◆ understand that all numbers are made of smaller numbers ◆ name some shapes ◆ order events in a day ◆ count, subitise and compare 1 more and less

Phonics:

The children will be supported to develop their phonics knowledge in line with their development and skills using Read Write Inc. Don't forget to look at the phonics knowledge organiser for more information.

Communication and Language:

Language is integral to a child's development and learning; we aim to provide a language rich environment. This term we focus on following instructions, asking questions and the use of prepositions.

The child begins to perceive the world not only through his eyes but also through his speech
— Lev Vygotsky

School Values:

We have four school values which encompass the way we learn and teach. We remember them with the mnemonic PACK:

Perseverance, Aspiration, Curiosity, Kindness

Keep an eye out for your child demonstrating these values, we love to hear about it!

Exploring the world:

The theme of our learning this term is exploring and understanding why and how things work. Our planned exploration is space and dinosaurs with a hint of engineering but our learning can always take a turn based on the children's interests and ideas.

Play number games, recognising numbers, counting, and saying numbers. Practise subitising (recognising a group without counting):
